

Homework Assignment #7
Physics 201

Due Tuesday, November 27th

Reading: Read Chapter 6 (but there won't be any quantitative problems from sections 6.4 or 6.5). You should think about rereading as much of Chapter 5 as you need. There is a lot in that chapter and it isn't all obvious the first time through.

.By the way: *Start early! These are hard!*

From the text (Serway and Jewett): Chapter 5

Questions:

#20, 22, 23

Problems:

#33, 47, 54, 55, 58, 59

From the text (Serway and Jewett): Chapter 6

Questions:

#7, 11 (yes, #11 is wicked hard, but write down your ideas), 13, 17

Problems:

#5, 9, 13, 15, 19, 21, 71
